TIME AND LABOR SOLUTIONS

a secure web-based timekeeping service to integrate with our payroll system.

- ① TIMEKEEPING:**
robust and stable web-based timekeeping service.
- ② BASIC SCHEDULING:**
basic scheduling options to ensure coverage, with schedule enforcement through warning or lockout.
- ③ CLOCK OPTIONS:**
wide range of clock support from simple PIN-based punch clocks to fully interactive web-based clocks with biometric identification.
- ④ LABOR DATA AND REPORTING:**
control labor spend and correlate activity with designated jobs, location or cost categories. utilize reports for cost projections, deviation analysis, to measure impact of initiatives, proactively monitor trends or for compliance.
- ⑤ OVERTIME MANAGEMENT:**
auto-apply overtime or proactively alert as thresholds are approached.
- ⑥ PAYROLL INTEGRATION:**
payroll system integration helps processing and reduces data errors.
- ⑦ ADMINISTRATION:**
simple, user-friendly tools for administration and management.
- ⑧ EMPLOYEE ACTIVITIES:**
employees have flexibility and control with multiple clock options and time card visibility.
- ⑨ SUPERVISOR ACTIVITIES:**
supervisors have workforce visibility and powerful tools for management.
